FEATURES

RETRO FIT

No rewiring or renovation needed in your existing wiring for our WhiteLion switches

WATER RESISTANT

Compared to normal switches WhiteLion smart switches are water-resistant

MODULAR SIZE

Our smart switches are designed in a modular size so they are easily compatible with Legrand, Norisys, Schneider-Unica Modular Plates

TWO WAY PROVISION

Two way switches provide comfort in switching operations. So we included this features in our smart switches along with Remote Control

HEAVY LOAD

For Heavy Load home appliances like AC, Chimney, Motor we have a High Load Device in our product range. It increases the voltage capacity of the switches

DUAL LIGHT INDICATION

This feature is useful in better understanding of the switch's condition with eye-friendly colours

Green Colour for ON
White Colour for OFF

SHOCK PROOF

No need to worry about electric shock while touching the switches with wet hands and while cleaning with a wet cloth

MASTER CONTROL

No need to turn off individual switches from switchboard, you can switch the whole panel off by touch the Master Button
